Lieutenant Colonel (The United Federation Marine Corps Book 6) Jonathan P. Brazee

As a lieutenant colonel, Ryck is given command of the Second Battalion, Third Marines, the Fuzos. Along with one other battalion, 2/3 is designated as a new assault battalion, with its own armor, artillery, and air assets. With the Marine Corps anxious to certify the resurfaced concept of integrated operations units, the battalion is thrown right into the fire.

With his new command, Ryck has the opportunity to prove his ability to be a true combat leader and not just as a warrior. But with that opportunity comes the risk that he cannot handle the manager aspect of command: the logistics, training, maintenance, admin, and support aspects that allow every unit to maximize its combat potential.

As a sergeant and junior officer, Ryck has ordered men to their death before, but with a battalion, he has to make even harder decisions with even greater reach, decisions that will mean life and death to those affected. A proven fighting Marine, Ryck still has to master every requirement of command—the tactical and the support—if he is going to keep his career alive in the Corps.
