ABOUT THE BOOK

Shur Strike lures have been a very misunderstood production lure. The confusion arises because they were made for retailers to sell, rather than under the name of the manufacturer, Creek Chub. A lot of collectors considered them a "cheap lure," but as the Shur Strike line became more understood over time, collectors have realized that these lures were by no means cheaply made. Whether it was the main Creek Chub line or the Shur Strike line, Creek Chub produced quality lures. Information has always been hard to find on Shur Strike lures. Since Creek Chub did not mark these lures with stencils or engraved lips, it has been difficult for collectors to identify these baits. Hopefully with the contents of this book, collectors will be able to identify and enjoy some of the most colorful and beautifully made lures of their time. This book contains color photos of all presently known Shur Strike model lures as well as picturing all known Shur Strike colors.
