The Quality of Growth Vinod Thomas, Mansoor Dailami, Ashok Dhareshwar, Ramon E. Lopez, Yan Wang, Nalin Kishor, Daniel Kaufmann

The last decade of the 20th century witnessed striking progress in the developing world and at the same time, it also saw stagnation and setbacks. Economic growth is key to development both in its pace and also in its quality. 'The Quality of Growth' is a collection of essays in an ongoing research project. The book looks at the 'World Development Report 1991: The Challenge of Development' and examines how far we have progressed at the turn of the millennium.

According to the report, there are four factors especially relevant for poverty outcomes:

- distribution,
- sustainability,
- variability, and
- governance surrounding the growth process.

'The Quality of Growth' advocates broadening the policy framework from a quantitative agenda for short-term economic growth to a qualitative agenda involving human, social, and environmentally sustainable development. It is an important resource for policymakers, academicians, and all those working in the area of international development.

A copublication of the World Bank and Oxford University Press.

From reader reviews:

Thomas Smith:

Here thing why this The Quality of Growth are different and trustworthy to be yours. First of all looking at a book is good but it really depends in the content from it which is the content is as scrumptious as food or not. The Quality of Growth giving you information deeper including different ways, you can find any e-book out there but there is no guide that similar with The Quality of Growth. It gives you thrill looking at journey, its open up your current eyes about the thing this happened in the world which is possibly can be happened around you. You can easily bring everywhere like in park your car, café, or even in your means home by train. If you are having difficulties in bringing the paper book maybe the form of The Quality of Growth in e-book can be your substitute.

Robert Marshall:

Spent a free time and energy to be fun activity to do! A lot of people spent their sparetime with their family, or their particular friends. Usually they carrying out activity like watching television, planning to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could possibly be reading a book can be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the book untitled The Quality of Growth can be fine book to read. May be it could be best activity to you.

Nicholas Tapia:

Reading a book to get new life style in this 12 months; every people loves to study a book. When you learn a book you can get a wide range of benefit. When you read books, you can improve your knowledge, because book has a lot of information on it. The information that you will get depend on what kinds of book that you have read. In order to get information about your research, you can read education books, but if you want to entertain yourself you are able to a fiction books, these kinds of us novel, comics, in addition to soon. The The Quality of Growth will give you a new experience in reading through a book.

Darryl Payton:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this The Quality of Growth can make you experience more interested to read.
