## **Atlas Force Dossier: Person of Interest Bio: Brent Carlson**

As an astrophysicist child prodigy with an IQ regularly tested over 180, Brent Carlson at 13 years old, instead of naming constellations like other kids his age, was discovering galaxies. At 18, in part to rebel from what he considered the “pointless pondering” of scientific institutions and the “bottleneck of the hierarchical academia elite,” he dropped off that path and joined the US Army where he became one of their top combatives fighter. After 8 years of meritorious if a bit reckless service, he applied to join the NASA Astronaut Corps.

His application essay stated he didn't want to waste away just sitting on the sidelines and watch history unfold at a snail's pace. Instead, he was going to accelerate the creation of history.

He was accepted, and quickly rose to the head of his class. Though his scores and performance on missions to space were exemplary, his psychological assessors were concerned for his growing disdain towards those in charge of the current pace of space exploration. He was dangerously close to a dismissal from the

Astronaut Corps...

That is until he met the future Mrs. Shayla Carlson who helped him see the world in a new light. Their joint effort on the Unified Mars Path project, and their iconic Human Race to Mars speech given at the UN served as a galvanizing moment for the growing Mars Now movement.

Unfortunately, with Shayla's recent suspicious death at the hands of REDACTED REDACTED REDACTED, Brent has gone over the edge. His sanity has been questioned, and his hatred for those in power has been publicly stated... Despite that, we still desperately need him. We need to leverage his high profile as one of the most recognized astronauts on the planet, and we need to utilize his singularly unique skills to ensure the Mars Journey mission success. To that end we are sending our best to bring him in. We anticipate he won't come willingly.
