HAUNTED FROM WITHIN:

For some, death is not the end. Thanks to modern medicine, they are given a second chance. A second chance to live, and another chance to kill.

The latest novel from Ian C.P. Irvine 'Haunted From Within' is a fast paced contemporary medical thriller, based upon a true medical mystery that scientists and doctors do not yet understand.

When Peter Nicolson, a reporter with the Edinburgh Evening News, is almost killed by a gang leader out to make his mark, the only way to save his life is through a double kidney transplant. One of the first people in the world to be treated with the new genetic wonder drug 'SP-X4', Peter makes a remarkable recovery. Yet as he recovers, his personality begins to change, and he discovers that he can see visions of unsolved killings committed by a murderer that no one has ever caught. Peter sets out to solve the murders, to track down the killer, and find out the truth behind the visions that he sees.

MURDER MYSTERY & ETERNAL YOUTH:

Murder. Mystery. Detective Work. A Global Conspiracy...this novel has it all!

No one wants to grow old and die: especially if you are rich and powerful and control most of the world's resources. Such people have too much to lose. In fact, thanks to 'The Orlando Treatment' death is no longer an obstacle to be feared...

'Murder Mystery and Eternal Youth' is a fast paced, page-turning thriller, based upon the latest state-of-the-art discoveries in genetics and stem-cell research. The result is a truly scientific adventure but with a thrilling twist.

When Kerrin Graham, a retired cop and now an investigative journalist with the Washington Post, receives a call in the middle of the night, his life is about to be turned upside down.

Six of the world's leading geneticists have all 'committed suicide' in the past seven days. Discovering that those who died were killed to stop them unveiling the results of their revolutionary genetic research, a discovery that could usher in a new age of hope and health for all humanity, Kerrin vows to find who was responsible for their deaths and to uncover the powerful secret they were killed to protect.

When those around him start to die, and his wife disappears, it becomes a race against time to find the missing 'Orlando File', the only hope of saving his crippled wife and proving to an unsuspecting world, the truth behind the sinister Chymera Corporation of America.

And yet, when Kerrin eventually understands just what the Orlando File contains, he is faced with a choice no man should ever have to make, and everyone who reads this book must ask the same question: "What would I do, if I were him?"

CROWN OF THORNS:

Crown of Thorns is a fictional thriller which takes place in the field of genetics and human cloning.

A young student at Oxford University has an idea for his doctor's thesis (Ph.D.), which fulfils not only the criteria for 'originality', but goes far beyond it. For if Jason Dyke is right, his idea will soon change the world and shift the delicate balance of power from one nation to another.

Jason's idea is simple: In the genetics laboratory at Oxford University, he will clone Jesus Christ.

But when the CIA finds out about his plan, the President of America decides that he must create his very own clone of Jesus Christ
