In Defense of a Younger Earth: Kidd Copper Property Case Loreen Michele Sherman MBA 24 NEW GEOLOGIC FINDINGS RE-CONSTRUCT THE HISTORY OF THE EARTH

New findings in a well-known case study witnessed by others provide us with new resources and tools. We no longer have to guess about the layers we see in the rock records.

Several Geologic Laws Falsified

No lab was involved to synthesize simulations; instead the basis for this methodical record was observations logged from 'in situ' primary research.

This scientific report is based on what is seen; not what is not seen.

*Assigning ages to the rock layers is unreliable. Page 322.

***Concept of Uniformitarianism is further refined. Page 180 - 183.**

*Concept of old Earth time based on slow processes through time is further refined. Page 186.

If contradictory evidence turns up, the theory must be re-evaluated or even abandoned.

The Kidd Copper Case located near Sudbury, ON, Canada is significant. Geologists study the rock records to establish the diagenesis of Planet Earth. The rationality has been that **reading the rock record leads man to date the age of the Earth** as very old. Multiple layers have been read as an accumulation over time as a slow process.

Kidd Copper exposes and examines three steps of depositional processes against conventional geology principles and laws.

***What constitutes a primary structure? Page 4, 52.**

*A new look at adjacent structures. Page 134, 315.

***The law of equal declivities is falsified. Page 210, 271, 273, 316.**

*The principal of original lateral continuity is not supported. Page 209.

***Some calibration methods such as astronomical tuning or radiometric age dating are problematic. Page 320.**

*Incomplete geologic record, extrapolations and guess work are outdated. Page 321.

Learning Outcomes

***How to correlate rock stratigraphy and sediment structures? Page 4, 160.**

*What are the results of a cataclysmic event? Page 164.

***How eye witness testimonials improve the quality of research. Page 279, 312.**

*The best method to frame and interpret rock sequences. Page 312.

***What alternating bands of sediment represent. Page 313.**

*Forces of turbulent flow and mixing processes to create uplift and redeposition. Page 211, 282.

***The effects of a dam breach and the distribution of laminae after solution. Page 7, 56.**

*Cross-examination of several geologic principles and laws. Page 26, 285.

The Kidd Copper property provides a **natural real-time small-scale event** that can be factually correlated and observed without guessing to time references. No missing links are required to account for dates.

***The principal and Law of Original Horizontality is falsified. Page 174, 199, 214, 278.**

*The Law of Superposition is falsified. Page 319.

***Conventional sedimentary rock order is falsified; the oldest rock is not on the bottom. Page 320.**

*The Geologic Time Scale is insufficient. Page 322.

If there had been no eye-witness accounts, no established boundaries and no supportive data about Kidd Copper it could be mistakenly concluded that the mine tailings sediment was laid down slowly over millions of years; however, this is not the case.

The overlapping of geology, the rock record and the evolution of time is based on reading the rock records. Thus, new possibilities for the date of the Earth **open the doorway to re-examine the claim for a younger Earth.**

Stock this educational reference material in your library; *'In Defense of a Younger Earth'* is available in the Canadian Library and Archives Catalog.

From reader reviews:

Pedro Engle:

This In Defense of a Younger Earth: Kidd Copper Property Case book is not really ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is usually information inside this book incredible fresh, you will get info which is getting deeper anyone read a lot of information you will get. This specific In Defense of a Younger Earth: Kidd Copper Property Case without we comprehend teach the one who reading through it become critical in thinking and analyzing. Don't end up being worry In Defense of a Younger Earth: Kidd Copper Property Case can bring once you are and not make your bag space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This In Defense of a Younger Earth: Kidd Copper Property Case having fine arrangement in word along with layout, so you will not truly feel uninterested in reading.

Olive Griffin:

Reading a publication can be one of a lot of exercise that everyone in the world likes. Do you like reading book thus. There are a lot of reasons why people love it. First reading a guide will give you a lot of new facts. When you read a e-book you will get new information mainly because book is one of several ways to share the information or maybe their idea. Second, reading through a book will make you more imaginative. When you examining a book especially tale fantasy book the author will bring that you imagine the story how the figures do it anything. Third, you are able to share your knowledge to others. When you read this In Defense of a Younger Earth: Kidd Copper Property Case, you may tells your family, friends as well as soon about yours guide. Your knowledge can inspire the mediocre, make them reading a e-book.

Jessie Davis:

Are you kind of hectic person, only have 10 or even 15 minute in your day to upgrading your mind talent or thinking skill actually analytical thinking? Then you are having problem with the book as compared to can satisfy your short space of time to read it because all this time you only find reserve that need more time to be learn. In Defense of a Younger Earth: Kidd Copper Property Case can be your answer since it can be read by a person who have those short free time problems.

Keith Kemp:

Many people said that they feel weary when they reading a e-book. They are directly felt it when they get a half regions of the book. You can choose the actual book In Defense of a Younger Earth: Kidd Copper Property Case to make your own reading is interesting. Your own personal skill of reading skill is developing when you similar to reading. Try to choose very simple book to make you enjoy to learn it and mingle the idea about book and looking at especially. It is to be 1st opinion for you to like to start a book and learn it. Beside that the publication In Defense of a Younger Earth: Kidd Copper Property Case can to be your new friend when you're feel alone and confuse in doing what must you're doing of their time.
