Sheet Size: 18"x 24" ~ Other Sizes Available In 1876 when this superb folio map of Texas was published by the S.A. Mitchell Co., the frontier was still in flux, and the western counties including those on the barren and little known llano estacado had not yet been formed from the early territories. This oversize limited edition reproduction brings out many normally hard to see features. In this transitional period, the railroads had only reached as far west as Fort Worth & San Antonio. Shown are the major Indian war trails, the military roads still connecting all the frontier forts and many now-forgotten place names.. This is one of the few major post-Civil War maps that shows the entire state of Texas without chopping off either the Panhandle or the western sections which adds greatly to the visual appeal. In addition, a very large part of Indian Territory and New Mexico is shown in full color and detail. The map features the trademark grapevine border coupled with effective but subtle hand wash coloring. This is in direct contrast to the crude & garish "checkerboard" look of many of its contemporaries. This may be one of the most beautiful of the many Mitchell maps of Texas , and possibly one of the best looking Texas maps ever published. The Perfect Gift: As period decor, a business gift, and as a working map for writers, scholars, schools, historians, researchers. All maps are printed on very heavy linen-finish acid-free paper with archival inks. Beautiful in a frame, but also capable of withstanding continuous handling and everyday use.
