As a classroom teacher who has also worked as a neurologist, Judy Willis offers a unique perspective on how to help students not only learn the mechanics of reading and comprehension, but also develop a love of reading. She shows the importance of establishing a nonthreatening environment and provides teaching strategies that truly engage students and help them

- Build phonemic awareness
- Manipulate patterns to improve reading skills
- Improve reading fluency
- Combat the stress and anxiety that can inhibit reading fluency
- Increase vocabulary
- Overcome reading difficulties that can interfere with comprehension
