The United States is in the midst of a major demographic shift. In the coming decades, people aged 65 and over will make up an increasingly large percentage of the population: The ratio of people aged 65+ to people aged 20-64 will rise by 80%. This shift is happening for two reasons: people are living longer, and many couples are choosing to have fewer children and to have those children somewhat later in life. The resulting demographic shift will present the nation with economic challenges, both to absorb the costs and to leverage the benefits of an aging population.

Ageing and the Macroeconomy: Long-Term Implications of an Older Population presents the fundamental factors driving the aging of the U.S. population, as well as its societal implications and likely long-term macroeconomic effects in a global context. The report finds that, while population aging does not pose an insurmountable challenge to the nation, it is imperative that sensible policies are implemented soon to allow companies and households to respond. It offers four practical approaches for preparing resources to support the future consumption of households and for adapting to the new economic landscape.

From reader reviews:

Jose Goodell:

As people who live in the modest era should be upgrade about what going on or data even knowledge to make them keep up with the era which is always change and move forward. Some of you maybe may update themselves by reading through books. It is a good choice in your case but the problems coming to an individual is you don't know which one you should start with. This Aging and the Macroeconomy: Long-Term Implications of an Older Population is our recommendation to help you keep up with the world. Why, because book serves what you want and want in this era.

Lori Roth:

Often the book Aging and the Macroeconomy: Long-Term Implications of an Older Population has a lot info on it. So when you make sure to read this book you can get a lot of profit. The book was authored by the very famous author. The writer makes some research just before write this book. That book very easy to read you will get the point easily after reading this book.

Beverly Barber:

You can obtain this Aging and the Macroeconomy: Long-Term Implications of an Older Population by check out the bookstore or Mall. Just viewing or reviewing it can to be your solve problem if you get difficulties to your knowledge. Kinds of this e-book are various. Not only by written or printed but in addition can you enjoy this book simply by e-book. In the modern era such as now, you just looking from your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to choose right ways for you.

Martin Song:

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just minor students that has reading's spirit or real their passion. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Aging and the Macroeconomy: Long-Term Implications of an Older Population can make you really feel more interested to read.
