Literacy, Technology, and Diversity: Teaching for Success in Changing Times

Jim Cummins, Kristin Brown, Dennis Sayers

Literacy, Technology, and Diversity: Teaching for Success in Changing Times Jim Cummins, Kristin Brown, Dennis Sayers
An invaluable resource for both practicing and pre-service teachers, this long-awaited book offers a fresh and much-needed point of view of how to "rethink" literacy and technology in today's diverse classrooms.

Authored by some of the most respected researchers in the field today, *Literacy, Technology, and Diversity* reflects on the idea that great expectations are achievable through educational projects that foster academic growth, with classroom diversity and technology as catalysts for deeper learning, and that a narrow focus ongrade expectations yields superficial results. Arguing today's learning principles need to incorporate the core values of community learning, critical pedagogy, multilingualism, anti-racist education, high academic standards, and technological fluency, Cummins, Sayers and Brown provide a thought-provoking introduction into these learning principles that will inspire the life-long learning of students.

Take a peek inside...
Provides **examples of projects**, backed by research-based theories for their effective adaptation to help both pre-service and practicing teachers become more independent and creative in the ways they use technology. Includes a complimentary **CD-ROM** of additional resources for teachers as well as updated portraits on exemplary projects.
