How do you solve a murder when the victim comes back to life with no memory of recent events?

In the 22nd century, America struggles to rebuild after the second civil war. Democracy has been suspended while the reconstruction effort lifts the country out of the ruins of conflict. America's fate lies in the hands of a genetically-engineered soldier with the ability to move through time.

The Road to Hell deals with a futuristic world and the advent of limited time travel. It explores social issues such as the nature of trust and the conflict between loyalty and honesty.
