This topical and much needed book constitutes an important part of the debate on the best practices for ensuring integrity in an organizational context. This book offers essential insights not only to business leaders but also to management educators and administrators who understand the urgency and importance of developing further responsible global leaders. This volume offers and discusses case studies and examples from organizations from all over the world. The book distils practical advice and guidance, explaining in detail how leaders may build organizations with strong integrity foundations. It provides valuable research results as well as teaching tools, enabling course leaders at undergraduate, master s and MBA level in all business schools around the world.
