Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science)

XP Agile Universe 2003 is the third conference in a series running in North America and attracting participants from all over the world who are interested in the research, development and application of agile software processes. Agile approaches value people and interaction over processes and tools – moving software engineering from the process-oriented software development approaches of the 1990s towards people-oriented approaches that we are starting to see more and more in this decade. Agile approaches stress a holistic view of software developers as being involved in analysis, design, implementation and testing activities, while more traditional, Tayloristic approaches separate these tasks and assign them to different “resources.” Tayloristic approaches create knowledge-sharing problems as information gathered by one person needs to be handed over – usually in the form of documentation – to the next person in the chain. Agile approaches reduce the number of hand-offs and, thus, decrease the amount of required documentation for knowledge sharing. While deemed a novelty only a few years ago, agile methods are now being established in the software industry and are being applied in more and more application domains. While agile approaches move into the mainstream of software organizations, we are only now beginning to understand their benefits, areas of applicability, and also their dangers. This year’s conference will increase this understanding and provide a better base for industry practitioners as they assess the effectiveness of agile methods in their environment.

From reader reviews:

Kenneth Roberts:

This book untitled Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science) to be one of several books that will best seller in this year, that's because when you read this guide you can get a lot of benefit on it. You will easily to buy this kind of book in the book retail outlet or you can order it via online. The publisher with this book sells the e-book too. It makes you easier to read this book, because you can read this book in your Smart phone. So there is no reason to you personally to past this guide from your list.

Marlene Turner:

Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science) can be one of your beginning books that are good idea. Most of us recommend that straight away because this guide has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The author giving his/her effort to put every word into joy arrangement in writing Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science) nevertheless doesn't forget the main point, giving the reader the hottest in addition to based confirm resource info that maybe you can be certainly one of it. This great information can drawn you into fresh stage of crucial imagining.

Kevin White:

In this period of time globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The health of the world makes the information better to share. You can find a lot of sources to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher that print many kinds of book. The actual book that recommended for your requirements is Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science) this book consist a lot of the information with the condition of this world now. This specific book was represented how do the world has grown up. The words styles that writer use to explain it is easy to understand. The writer made some study when he makes this book. This is why this book acceptable all of you.

Byron Angle:

Reading a publication make you to get more knowledge from it. You can take knowledge and information

from a book. Book is prepared or printed or created from each source which filled update of news. In this modern era like now, many ways to get information are available for you actually. From media social like newspaper, magazines, science publication, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just in search of the Extreme Programming and Agile Methods - XP/Agile Universe 2003: Third XP and Second Agile Universe Conference, New Orleans, LA, USA, August 10-13, 2003, Proceedings (Lecture Notes in Computer Science) when you needed it?
