**Quantitative Analysis in Financial Markets** New York University Mathematical Finance Seminar (1995-1998), Marco Avellaneda

This volume contains lectures delivered at the celebrated Seminar in Mathematical Finance at the Courant Institute. The lecturers and presenters of papers are prominent researchers and practitioners in the field of quantitative financial modelling. Most are faculty members at leading universities or Wall Street practitioners. The lectures deal with the emerging science of pricing and hedging derivative securities and, more generally, managing financial risk. Specific articles concern topics such as option theory, dynamic hedging, interest-rate modelling, portfolio theory, price forecasting using statistical methods, and more.
